♥ Translator apps and AI translation ♥

Do you use an application to translate
text, speech, or both?

When using an app to translate
text or conversation, please remember:

- ♥ Never translate confidential information.
  Do not translate someone's name,
  address or health conditions.
  If it is covered by our non-disclosure agreement,
  you are not allowed to insert it in a translator app
  as text, picture or speech.
  If you are unsure, always ask a coordinator first.

- ♥ Always ask for permission from your older friend
  or other volunteers before using the application
  to translate their speech.

- ♥ All Mummon Kammari orientation materials
  can be translated, but please remember
  that the translation might be incomplete.
  Ask if you're unsure whether the app got it right!

Thank you for being mindful and
protecting others' private information!
